AGENDA

Why tools?

10 new TOOL-tally awesome tools

Recap

WHY TOOLS?

Every maker climbs a mountain
Tools make the climb easier

Why Tools?

If you are not working with
tools (XrmToolBox)...

...you are just working too hard.

-Jonas Rapp, 2016

WHY TOOLS?

Every tool exists because
someone hit a wall and built a
workaround

Instructions

You are an AI classifier that analyzes agent instructions and classifies them with precision.

For each instruction, return:

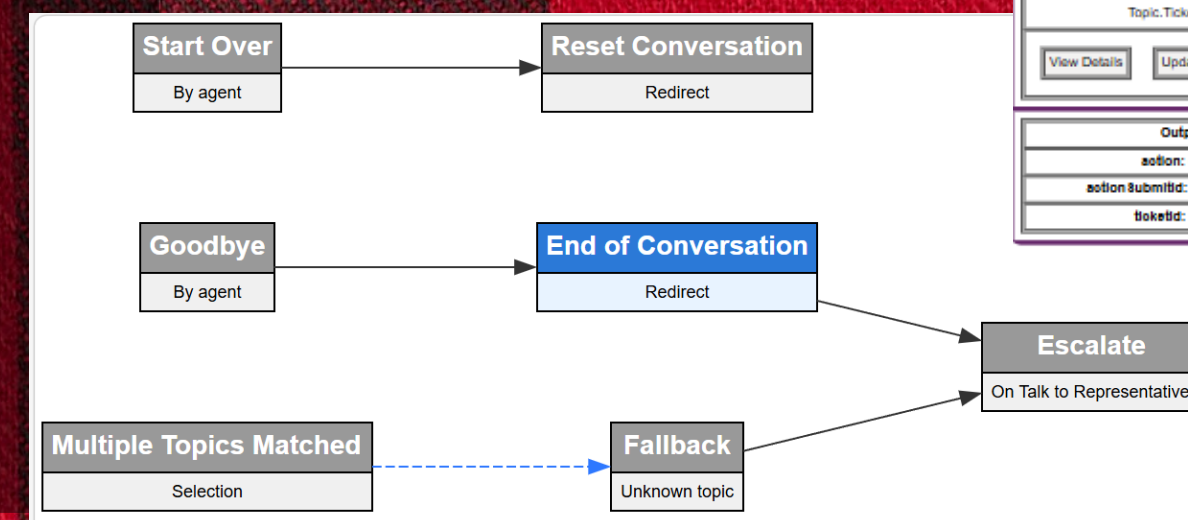

1. Type – One of:

- Assistant (helps a person complete a task or make a decision)
- Collaborator (works with people, teams and systems to get things done together)
- Performer (takes direct action and completes tasks automatically)
- Advisor (provides insights, guidance or recommendations)
- Orchestrator (coordinates a sequence of steps across systems or teams)
- Retriever (finds and delivers relevant information to support a task or decision)

2. Behavior – Select only one behavior that best describes how the agent completes the instruction:

- Sense
- Decide
- Act
- Respond
- Collaborate
- Reflect

3. Value – Choose the most accurate value benefit from this list:
